My Education Plan

In order to educate you, your care team has a series of...

Tigr's NEW StaffConnect.

Prescribe curricula and launch patient education videos in one minute from any hospital networked device.

POWERED BY AVIDEX
TELEHEALTH
SERVICES

Tigr is the nation's leading interactive patient engagement system. As the cornerstone of TeleHealth Services interactive education solutions, Tigr AP gives patients on-demand access to your

library of educational content and hospital services. Tigr AP provides a robust and cost-effective method to deliver consistent, hospital-approved, condition-specific education around-the-clock.

Expanded StaffConnect Access

Quickly prescribe education to patients from any networked device, including tablets, nurse workstations/carts, and mobile devices.

On-Screen Graphics & Menus

Offer a rich on-screen TV experience with menus to guide patients to their patient-specific education and important hospital information.

Patient-Specific "My To-Do List"

Allow patients access to personalized care plans, with education, information, and discharge instructions via their My To-Do List.

Account Administration

Tigr comes with 3 years of account administration to help you design education programs, implement initiatives, share best practices, and drive more value in your Tigr system.

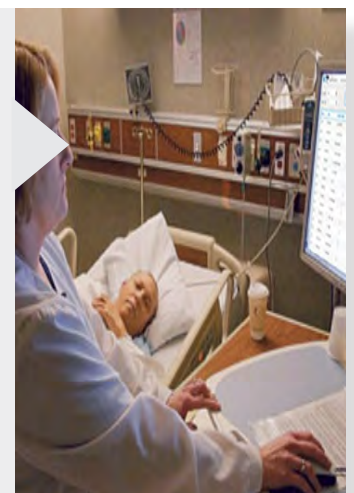

Advanced Interoperability

Provide automated documentation of educational events and compliance directly into a patient's medical record with our ADT & EMR interface.

StaffConnect Dashboard

Manage your patient education initiatives, track education compliance, and utilize powerful analytic tools from any networked device.

*Requires ADT/EMR interface
